KEY FEATURES

Dashboard: Empowers administrators to view the laundry data and live status for seamless operation. Every aspect of laundry processing can be viewed and GRN analysis can be performed remotely for retail outlets.

Master Data Management: Allows adding users such as Admins, Franchisees, Receiving Dept., Staff, Drivers with contact details for smooth operations. Maintains data for franchises, users, customers, items, and price lists.

Unique Item Code GRN Identification: Each item is assigned a unique GRN code, ensuring accurate tracking from pickup to delivery. The unique GRN system guarantees precise deliveries, eliminating the risk of misplaced garments.

GRN Entry: Goods Received Note (GRN) Entry facilitates the collection of items from the retail outlet location by the assigned driver followed by verification and updation of item by the Receiving Department at the factory through the GRN Entry form.

Item Processing Status: Provides valuable insights into order status and delivery, comprehensive reports can be viewed and quick actions can be taken for smooth laundry management.

Efficient Laundry Processing: Orders are placed through GRN Entry Forms and full-fledged reports with status at each stage are displayed. Any problems with the delivered item can be submitted through the complaint module along with the description for quick resolution and a hassle-free experience.

Packing Organization: Upon laundry completion, packing is done based on GRN and package barcoding.

Quality Assurance: Inspection forms, reports with details, QC form and quality check reports assures that every garment meets the highest quality.

Logistics Optimisation: Allows entering details of driver, dispatch team and packing team and the package barcode tracking system ensures accurate order fulfillment and timely deliveries, saving time and operational hassles like never before.

Comprehensive Complaints Management: Allows to easily submit, track and resolve complaints efficiently.

Claim Management: View claim reports, analyse and take actions for quick resolution.
